Subject: Meet and Confer Minute - September 2014

Faculty,

On September 15, 2014, the Meet and Confer Team met to discuss proposed meet and confer issues identified by the faculty and by the administration. The consolidated list of issues is attached. On September 29, 2014, the Meet and Confer Team will decide which of the 11 issues we will work in 2014 - 2015. Between now and September 24, faculty are invited to rate the relative importance of the 11 issues. This information will be used to inform the faculty on the Team of the collective viewpoint of the faculty. Please provide your feedback at the following link.

<https://www.surveymonkey.com/s/11issues>

Also on September 15, we spent time dialoguing about the MFA Salary Placement issue that was carried forward from last year. We brought new team members up to speed on the issue, provided the team with the list of faculty affected, and presented research on the issue conducted by the team last year. On September 29, we plan to generate options with the new team. The new options will be considered alongside the options identified during Spring 2014. Once we have reached consensus on an option or options to advance, we will seek assistance from the Vice Chancellor of Business Services to cost out the options. This information will inform the team as it works to identify a final solution to loop out to faculty for feedback.

Thank you for your continued participation in this process.

Best,

Frank Wilson
Meet and Confer Co-Chair
