The Faculty Association represents all Residential Faculty regardless of membership in the organization. The Faculty Association also recognizes that local College Senate representative positions and elections are open to all Residential Faculty (including non-FA members) at their respective colleges and that FA assistance is available to those senates upon request. However, given the independent status of the FA as defined by its articles of incorporation, faculty are required to be active members as defined in Article IV in order to participate in Faculty Association business.

Section A. Types of Membership
Membership in the Faculty Association shall consist of:

1. Regular Member
   Maricopa Community College District (MCCD) probationary and appointive residential faculty members defined below are eligible for Regular Membership:
   a. Academic residential faculty
   b. Occupational residential faculty
   c. Service residential faculty

2. Affiliate Member
   Affiliate membership may be granted to any individual who supports the purposes of the Faculty Association, including, but not limited to, retired faculty and adjunct faculty. Residential faculty are not eligible for Affiliate Membership.

Section B. Active Membership
An active membership begins when a person fully and completely fills out all of the required membership forms and pays the appropriate dues by the second Tuesday in October and continues to pay their dues according to their agreed upon payment schedule. Members who do not use an automated payment plan must pay for membership each year to maintain their active membership.

Section C. Revocation of Membership for Non-Payment of Dues
In the event a member does not meet his/her financial obligations for the following reasons, the name of the member shall be removed from the membership rolls and access to all benefits of Faculty Association membership will cease immediately if:

Every Active Affiliate Member is entitled to all non-voting, non-committee rights of Faculty Association membership as stated in the Constitution and Bylaws and may attend social events.

Every Active Affiliate Member will uphold the standards set forth in the Faculty Association’s Constitution, Bylaws, or any other rules or regulations of the Faculty Association; and the Professional Code of Ethics (Appendix A).

Section E. Term of Membership

The membership year for the Faculty Association is from July 1 to June 30.

Section F. Regulation of Membership

If a member fails to comply with the Faculty Association’s Constitution, Bylaws, or any other rules or regulations of the Faculty Association, fails to uphold the standards set forth in the Professional Code of Ethics (Appendix A), or commits unprofessional conduct considered prejudicial to the best interests of, or inconsistent with the purposes of, the Faculty Association, the member may be subject to sanction from the Faculty Association as stated in the Bylaws.
ARTICLE V. THE FACULTY EXECUTIVE COUNCIL

Section A. Composition of the Faculty Executive Council

1. The Faculty Executive Council will consist of approximately twenty-two (22) voting college faculty representatives, as allocated by the membership formula in Subsection 3 of this Article of the Constitution.

2. Representatives and Alternates to the Faculty Executive Council from each college must be Active Regular members of the Faculty Association for at least (2) semesters.

3. The twenty-two (22) members of the Faculty Executive Council will be allocated to the colleges in direct proportion to the number of faculty who are Active Regular Faculty Association members as of the date listed in Article IV of this Constitution for the preceding fall semester. If a college’s allocation does not constitute a full voting representative (less than one half (0.5) of a voting representative), then an additional voting faculty representative will be added to the Faculty Executive Council and will be allocated to that college.

The resultant size of the Faculty Executive Council may fluctuate around twenty-two (22) due to rounding considerations. Disputed or tied allocations may be adjudicated by the Council of Presidents.

For example, if College A has twenty one percent (21%) of the membership on the date listed in Article IV of this Constitution, then College A is entitled to 4.62 or rounded to the nearest whole number, five (5), positions (21% of 22 = 4.62). If College B has two percent (2%) of the membership on the date listed in Article IV of this Constitution, then College B would be entitled to no representatives based upon the formula (2% of 22 = 0.44). In this case, an additional voting position will be added and allocated to College B.

4. Each eligible college’s first representative position will be assigned to its Faculty Senate President, provided they are Active Regular members of the Faculty Association for the previous two (2) semesters.

Colleges with only one (1) voting representative may select a non-voting representative to regularly attend Faculty Executive Meetings. This person may also serve as the alternate in the absence of the Faculty Senate President.
Section B. Representatives shall begin their term on the Faculty Executive Council at the first meeting of the incoming Faculty Executive Council regardless of the date they were chosen by their College Faculty Senate.

Section C. The Faculty Association President, President Elect, and Past President may not also serve as Faculty Executive Council representatives or Alternate for their college.

Section D. Each College Faculty Senate will choose Alternates for their Faculty Executive Council representatives. Alternates will serve with full voting privileges in the event of the absence of a regular representative. Alternates for each college must be chosen by their College Faculty Senate and their names submitted to the Faculty Association President prior to their service on Faculty Executive Council. Prior notice should be given to the Faculty Association President when an Alternate will be used.

Section E. All members of the Faculty Executive Council will uphold the standards set forth in the Faculty Association’s Constitution, Bylaws, or any other rules or regulations of the Faculty Association; the Professional Code of Ethics (Appendix A); the Code of Responsibility (Appendix C); and the Residential Faculty Policies,

Section F. Committees of the Faculty Executive Council are stated in Article IX of this Constitution.

APPENDIX A. PROFESSIONAL CODE OF ETHICS

Professors, guided by a deep conviction of the worth and dignity of the advancement of knowledge, recognize the special responsibilities placed upon them. Their primary responsibility to their subject is to seek and to state the truth as they see it. To this end professors devote their energies to continuously developing and improving their scholarly competence. They accept the obligation to exercise critical self-discipline and judgment in using, extending, and transmitting knowledge. They practice intellectual honesty. Although professors may follow subsidiary interests, these interests must never seriously hamper or compromise their freedom of inquiry.

As teachers, professors encourage and protect the free pursuit of learning in their students. They hold before them the best scholarly and ethical standards of their discipline. Professors demonstrate respect for students as individuals and adhere to their proper roles as intellectual guides and counselors. Professors make every reasonable effort to foster honest academic conduct and to ensure that their evaluations of students reflect each student’s true merit. They respect the confidential nature of the relationship between professor and student. They avoid any exploitation, harassment, or discriminatory treatment of students. They acknowledge significant academic or scholarly assistance from them. They protect their academic freedom.

As colleagues, professors have obligations that derive from common membership in the community of scholars. Professors do not discriminate against or harass colleagues. They respect and defend the free inquiry of associates, even when it leads to findings, practices and conclusions that differ from their own. Professors acknowledge academic debt and strive to be objective in their professional judgment and supervision of colleagues. Professors accept their share of faculty responsibilities for the governance of their institution and for maintaining the highest professional standards through a meaningful culture of peer review.

As members of an academic institution, professors seek above all to be effective teachers and scholars. Although professors observe the stated regulations of the institution, provided the regulations do not contravene academic freedom, they maintain their right to criticize respectfully and seek revision. Professors give priority to their paramount responsibilities within their institution when determining the amount and character of work done outside it. When considering the interruption or termination of their service, professors recognize the effect of their decision upon the program of the institution and give due notice of their intentions.

As members of their community, professors maintain the rights and obligations of other citizens. Professors measure the urgency of these obligations in the light of their responsibilities to their subject, to their students, to their profession, and to their institution. When they speak or act as private persons, they avoid creating the impression of speaking or acting for their college. As citizens engaged in a profession that depends upon freedom for its health and integrity, professors have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.
APPENDIX B. ACADEMIC RESPONSIBILITY OF FACULTY SENATES

In accordance with national standards articulated by the American Association of University Professors, the Association of Governing Boards of Universities and Colleges, and the American Council on Education in the 1966 Joint Statement on Government of Colleges and Universities, the faculty of an institution has the primary responsibility for determination of academic policy and for assurance of the quality of academic programs. In keeping with this principle, the Faculty Association may receive requests for support and assistance from Faculty Senates of the District colleges and, if deemed appropriate, shall respond to them. Such responsiveness to requests for support and assistance is inherent in the mission of the Faculty Association.

Also, in keeping with the principles of the 1966 Joint Statement, the Faculty Association shall not intervene in matters pertaining to the internal academic policies of any District college or if such intervention is in conflict with the expressed recommendations of the Faculty Senate of that institution. Such disregard for the primacy of institutional faculty responsibility for matters of academic policy would contradict nationally respected standards of faculty governance to which the Faculty Association is committed.

Nothing in this policy shall be construed to limit the right of the Faculty Association to grieve or to take any other action it deems necessary in response to an alleged violation of the Residential Faculty Policies by any party at any location. Moreover, nothing in this policy shall be construed to limit the rights of faculty members to appeal or grieve through procedures defined in the Residential Faculty Policies.
APPENDIX C. CODE OF RESPONSIBILITY

Members of the Faculty Executive Council, like all faculty members, have a responsibility to maintain standards of personal integrity and of professionalism in teaching and scholarship. Members of the Faculty Executive Council also assume additional responsibilities for representation of the interests of their campus constituencies as well as for the interests and values of the District faculty, as a whole. Indeed, Council representatives are concurrently representatives of their campus faculties and officers of the Faculty Association with responsibility to safeguard the welfare and effectiveness of the Faculty Association.

Respect for and adherence to the policies and procedures of the Faculty Association, as the organizational representative of the District faculty, is essential to the effective balancing of the multiple responsibilities assumed by each Council representative. Conflicts of interests and ideas are inevitable in an enterprise as complex as this one, but such conflict does not diminish the expectation that Faculty Executive Council representatives will meet their responsibilities with full regard for the professional, collegial, and democratic values to which the Faculty Association is committed.
